

NorthWest Arkansas Community College Integrated Design Lab Minor Supervision Guidelines

Those that are enrolled in Early College Experience (ECE) and are under 18 years of age must have the Tool Lending Policy and Assumption of Risk, Waiver, and Release signed by a parent or legal guardian before accessing material, tools, and machines that could pose a risk to the student's safety.

Those that are not ECE students and are under 18 years of age ("minors") need to have the Tool Lending Policy and Assumption of Risk, Waiver, and Release signed by a parent or legal guardian before accessing materials, tools, and machines that could pose a risk to the minor's safety. Those minors need to be accompanied by a parent, guardian, or agent of the parent or guardian throughout the duration of their time in the IDL. Minors left in the IDL with no parent, guardian, or agent of the parent or guardian cannot use materials, tools, or machines in the IDL. Minors left in the IDL with no parent, guardian, or agent of the parent or guardian cannot participate in IDL activities that may or may not pose a risk to the minor's physical safety.
