

Global Biomanufacturing Curriculum

Available at biomanufacturing.org

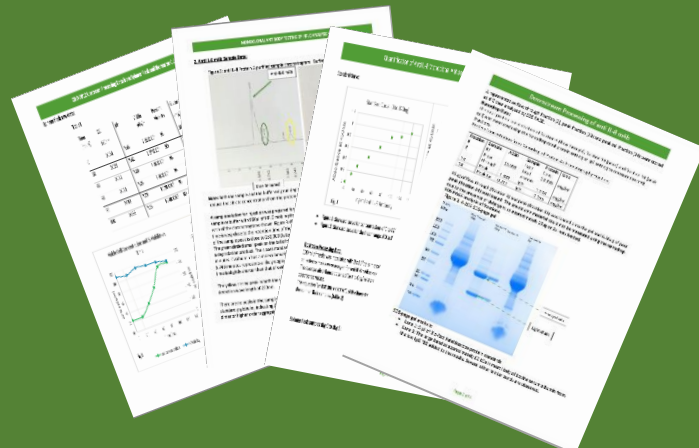

- Laboratory Manuals
- Biomanufacturing Textbook
- Curriculum modules
- Industry Skill Standards
- Standard Operating Procedures
- Biomanufacturing data for teaching labs virtually

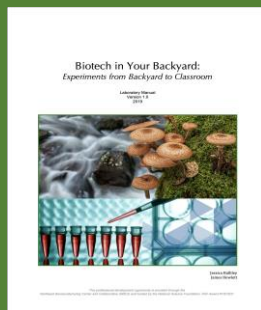

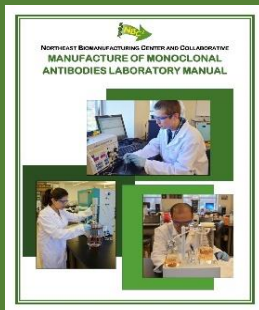

2020 Key Activities

- Manufacture of Monoclonal Antibodies Laboratory Manual
- Biotech in Your Backyard – Experiments from Backyard to Classroom
- “Analyzing Biomanufacturing Data” webinar
- Manufacture of Monoclonal Antibody Data

Remote Learning Resources

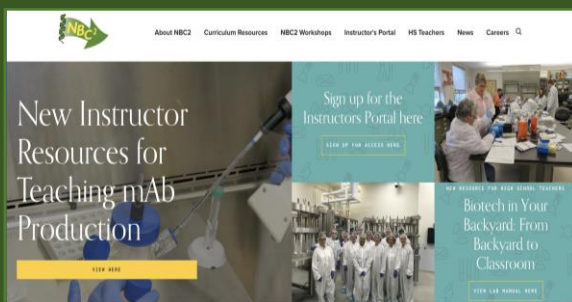

“I will use the data documents with my students so they can evaluate them, especially in lieu of face-to-face labs.”
 Survey respondent InnovATEBIO National Biotechnology Center

New Laboratory Manuals

Biomanufacturing.org

The NBC2 website offers open resource curricular material for faculty, industry, and high school teachers. It supports 169 Instructor Portal users representing 113 academic institutions and 11 companies. The materials available on this web site are accessed by an average of 600 users per month.
