

## Right-Sizing Evaluation for ATE Small Grants

March 19, 2014

**EvaluATE**  
EVALUATION RESOURCE CENTER for  
advanced technological education

**M**  
MENTOR  
CONNECT

The webinar will begin at 1 p.m. Eastern

## Introductions

Krystin Martens

Lori Wingate

Dennis Faber

Elaine Craft

Michael Lesiecki

**EvaluATE**  
EVALUATION RESOURCE CENTER for  
advanced technological education

**W** WESTERN MICHIGAN UNIVERSITY

**M**  
MENTOR  
CONNECT

**M** MARICOPA  
COMMUNITY  
COLLEGES  
NETWORKS

 This material is based upon work supported by the National Science Foundation under grant number 1204683. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the presenters and do not necessarily reflect the views of NSF.

## Objectives

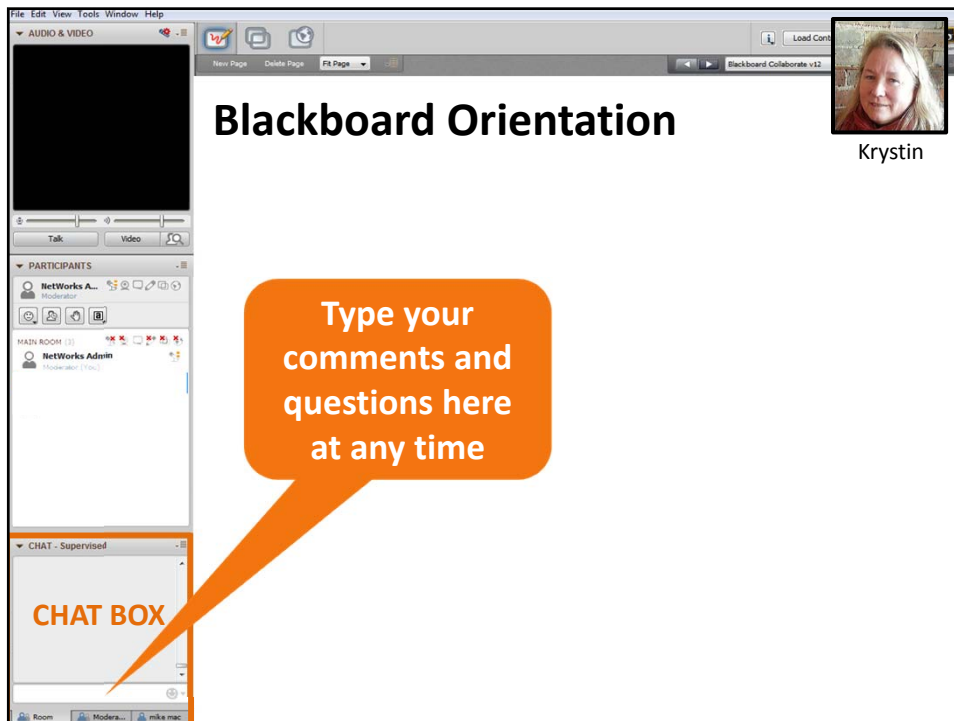

Krystin

### By the end of this webinar, you will...

1. Know the requirements and expectations for evaluation of ATE small grants.
2. Know how to maximize resources so that evaluation brings value to your small project.

	<b>INTRODUCTIONS AND HOUSEKEEPING</b>
	<b>Introduction to ATE Funding</b>
	<b>Comments &amp; Questions Break</b>
	<b>Right-sizing Evaluation for Small Projects</b>
	<b>Comments &amp; Questions Break</b>
	<b>Evaluation in the ATE Program</b>
	<b>Comments &amp; Questions Break</b>

**Blackboard Orientation**

Krystin

Type your comments and questions here at any time

CHAT BOX

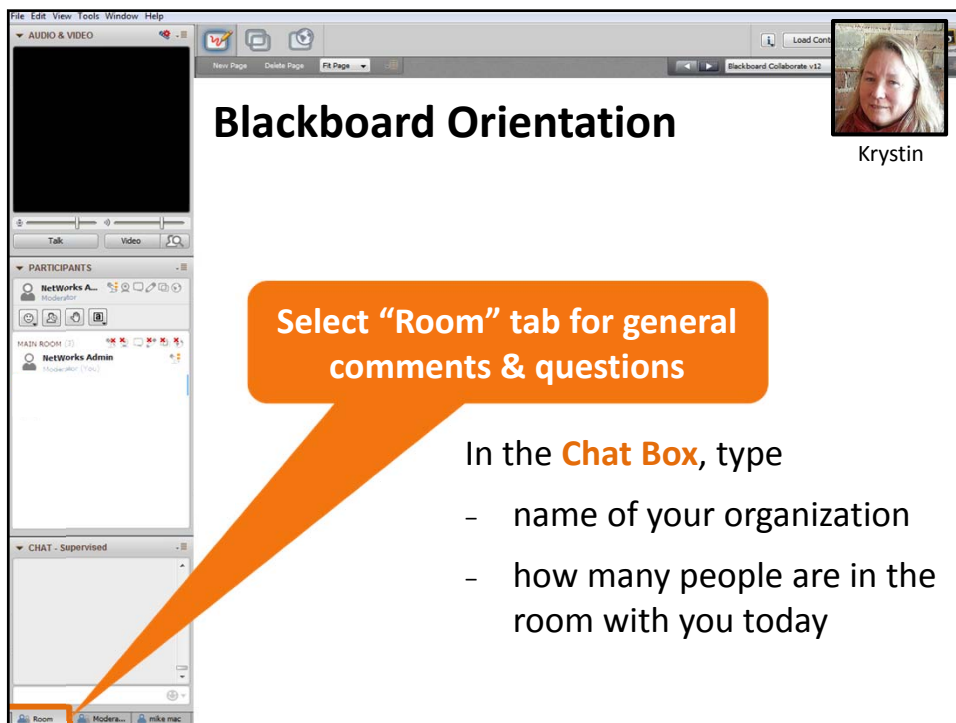

**Blackboard Orientation**

Krystin

Select "Room" tab for general comments & questions

The screenshot shows the Blackboard Collaborate v12 interface. At the top, there is a menu bar with 'File', 'Edit', 'View', 'Tools', 'Window', and 'Help'. Below the menu bar, there are several panels: 'AUDIO & VIDEO' (top left), 'PARTICIPANTS' (middle left), 'CHAT - Supervised' (bottom left), and a video feed (top right). The 'PARTICIPANTS' panel shows 'NetWorks A...' and 'NetWorks Admin'. The 'CHAT - Supervised' panel is empty. At the bottom, there is a navigation bar with tabs for 'Room', 'Modera...', and 'mika mac'. An orange callout box with a pointer highlights the 'Room' tab.

**Blackboard Orientation**

Krystin

Select "Room" tab for general comments & questions

In the **Chat Box**, type

- name of your organization
- how many people are in the room with you today

The screenshot is identical to the one above, showing the Blackboard Collaborate v12 interface. In addition to the orange callout box pointing to the 'Room' tab, there is a list of instructions on the right side of the screen. The instructions are: 'In the Chat Box, type' followed by two bullet points: '- name of your organization' and '- how many people are in the room with you today'.

## Materials

Handout

We'll email you everything by the end of the week

Also will be available from [evalu-ate.org/events/march\\_2014](http://evalu-ate.org/events/march_2014)

## Introduction to ATE Funding

Dennis  
Faber

Elaine  
Craft

Dennis

**The NSF ATE program** focuses on strengthening **technician education** at the post-secondary and secondary levels for the high-technology fields that drive our nation's economy.

## NSF ATE Program

Dennis

### **ATE grantees are expected to:**

- ensure that community colleges lead the grant efforts
- meet STEM workforce needs
- enhance STEM faculty teaching & leadership skills in **technician education**
- partner with employers & other key stakeholders

## Funding Levels

Dennis

### SMALL GRANTS

- Institutions New to the ATE Program
- \$200K for 3 years

A stack of US dollar bills is shown on the left. A thick black arrow points from the stack to the text "3 yrs" on the right.

## Funding Levels

Dennis

### PROJECTS

- up to \$900K for 3 years

A stack of US dollar bills is shown on the left. A thick black arrow points from the stack to the text "3 yrs" on the right.

## Funding Levels

Dennis

### PROJECTS

- Program Development, Implementation and Improvement
- Professional Development for Educators
- Curriculum & Educational Materials Development
- Teacher Preparation

## Funding Levels

Dennis

### CENTERS

#### National

- up to \$5M for 4 years

#### Regional

- up to \$3M for 4 years

#### Resource

- up to \$1.6M , 4 years

## Funding Levels

Dennis

### TARGETED RESEARCH

ON TECHNICIAN EDUCATION

\$1.2M for 4 years

## Suggested ATE Funding Pattern

Dennis

SMALL  
GRANTS

PROJECT  
GRANTS

CENTER  
GRANTS

## Evaluation Considerations

Elaine

Different funding levels usually require different types and extent of evaluation

## Evaluation Considerations

Elaine

Regardless of funding level, the ATE Program is interested in:

Impact

Effectiveness

Sustainability

Leveraging prior work, lessons learned, research

## Evaluation Effectiveness

Elaine

Regardless of funding level, **high quality evaluation** requires:

Elaine

**Clear and specific goals and objectives**

## Clear and specific goals and objectives

Elaine

**Goal 1:** Improve career awareness and increase student enrollment and success in the civil engineering technology program through college in-reach activities to improve career awareness.

**Goal 1, Objective 1:** Recruit from within the college to increase enrollment in civil engineering by 15% over three years, from a baseline enrollment of 60 first-year curriculum students in 2013-14.

Elaine

## Activities consistent with objectives

## Activities consistent with objectives

Elaine

### Goal 1, Objective 1 Activities:

- Select and prepare four well-spoken, diverse student ambassadors from among second-year students in the civil engineering technology program to assist with in-reach events.
- Conduct three types of in-reach events per year for 60 or more already-enrolled students, targeting students enrolled in program prerequisites such as College 101 and Intermediate Algebra, classroom presentations by student ambassadors, lunch-and-learn programs with industry speakers, and peer mentoring.
- Student Ambassadors provide informal peer mentoring for up to 15 highly interested students to encourage prospective civil engineering majors.

Elaine

## Clearly defined and stated outcomes

## Clearly defined and stated outcomes

Elaine

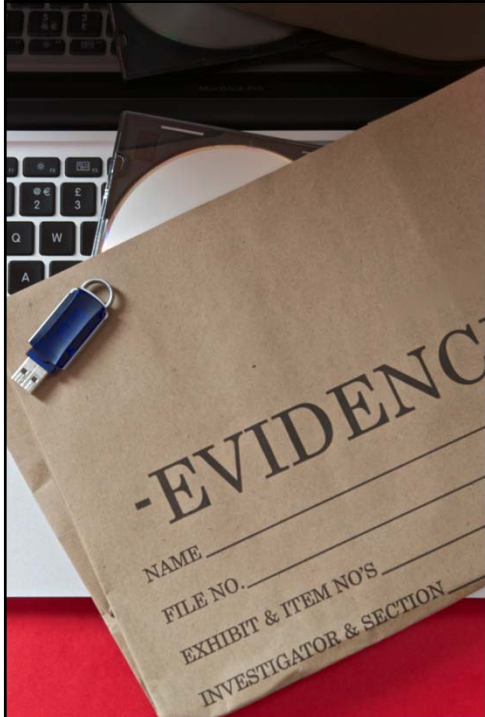

- In response to student ambassador presentations in targeted classes, at least 25% of those enrolled in the classes indicate an increased interest in majoring in civil engineering.
- Lunch-and-learn programs each year attract 30 prospective students, of whom 50% are likely to choose the civil engineering major.
- Peer mentoring is provided to 15 or more students indicating they are likely to choose the civil engineering major.

Elaine

## Quantitative and qualitative outcome measures

Elaine

## Evidence to support your claims

## Evidence to support your claims

Elaine

**Quantitative and qualitative evidence that implemented strategies worked:**

- Event participation data
- Observation of audience interest and interaction with Student Ambassador speakers and industry speakers
- Event participant interviews or survey data
- Student Ambassador interviews and feedback
- New student interviews and feedback
- Faculty interviews and feedback
- Baseline fall 2013, and ....SO WHAT?
- Fall 2015 and fall 2016 program enrollment data

# Right-sizing your project helps to right-size your evaluation.

## Right-Sizing Evaluation for Small Projects

**Lori  
Wingate**

Image source:  
expertcytometry.com

# Evaluation

Lori

**The systematic determination of something's merit, worth, or significance.**

# Evaluation

Lori

1. Ask important questions about a project's processes and outcomes.
2. Gather evidence that will help answer those questions.
3. Interpret the results and answer the questions.
4. Use the information for accountability, improvement, and planning.

# Big v. Small

Lori

**Conceptually**, there is no difference between evaluating a small project and evaluating a large project.

**Practically**, evaluations of small projects involve

- smaller evaluation questions
- fewer evaluation questions
- less data
- shorter timelines
- smaller budgets

...faculty-initiated project in response to challenges associated with the open lab format used at the college. Because students use the lab on an open-entry/open-exit basis, the staff member on hand at any one time might not have the expertise needed to help the student. To address this challenge, the staff is implementing a strategy of cross training, support and enhancement that provides all faculty members with enough knowledge to deal with basic content issues and questions in the shared concentrations (Electrical Engineering Technology, Electronics/Biomedical Technology, Electro-Mechanical Technology, and Automation Engineering Technology). ...

**Goals:**

1. Enhance the quality of students' learning experience in the Manufacturing Technology Center by improving the instructor's ability to assist all students in select courses.
2. Improve the quality of the labs.
3. Increase the percentage of students successfully completing courses on his/her first attempt.

**Lori**

**1. What is the problem or need being addressed by this project?**

← Failure rate must be relatively high

...faculty-initiated project in response to challenges associated with the open lab format used at the college. Because students use the lab on an open-entry/open-exit basis, the staff member on hand at any one time might not have the expertise needed to help the student. To address this challenge, the staff is implementing a strategy of cross training, support and enhancement that provides all faculty members with enough knowledge to deal with basic content issues and questions in the shared concentrations (Electrical Engineering Technology, Electronics/Biomedical Technology, Electro-Mechanical Technology, and Automation Engineering Technology). ...

2. Improve the quality of the labs.
3. Increase the percentage of students successfully completing courses on his/her first attempt.

**Lori**

## 5. Who is ultimately supposed to benefit from this project?

...faculty-initiated project in response to challenges associated with the open lab format used at the college. Because students use the lab on an open-entry/open-exit basis, the staff member on hand at any one time might not have the expertise needed to help the student. To address this challenge, the staff is implementing a strategy of cross training, support and enhancement that provides all faculty members with enough knowledge to deal with basic content issues and questions in the shared concentrations (Electrical Engineering Technology, Electronics/Biomedical Technology, Electro-Mechanical Technology, and Automation Engineering Technology.). ...

**Goals:**

1. Enhance the quality of students' learning experience in the Manufacturing Technology Center by improving the instructor's ability to assist all students in select courses.
2. Improve the quality of the labs.
3. Increase the percentage of students successfully completing courses on his/her first attempt.

Lori

## 6. What is expected to be different for students because of the project?

## 1. What is the problem or need being addressed by this project?

Lori

**Need**

Faculty do not have adequate knowledge to assist students in open labs.

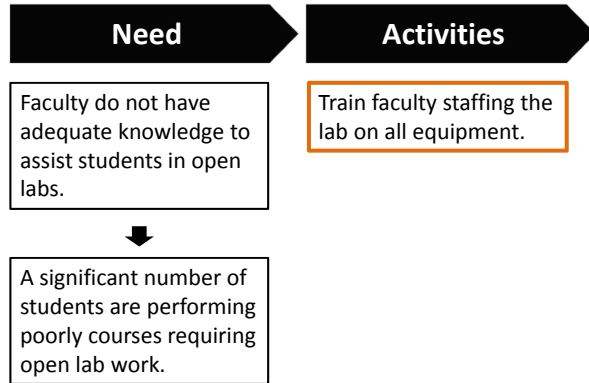

↓

A significant number of students are performing poorly courses requiring open lab work.

**2. What are the main project activities?  
3. Who are the primary participants in the project's activities?**

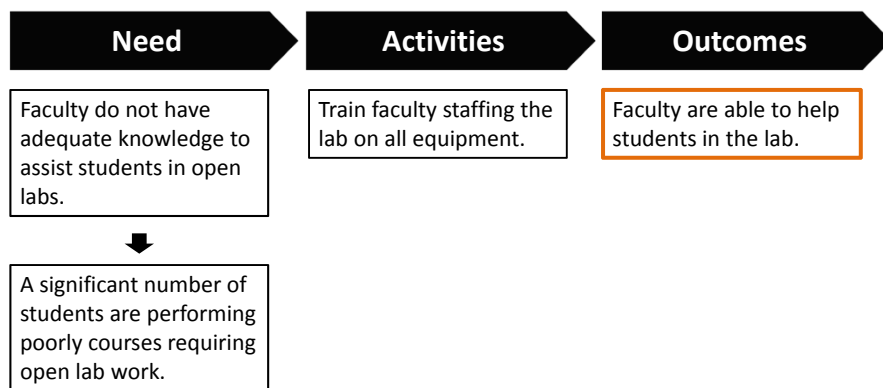

Lori

**4. What will be different for faculty because of the project?**

Lori

**5. Who is ultimately supposed to benefit from this project?**  
**6. What is expected to be different then?**

Lori

Need	Activities	Outcomes
Faculty do not have adequate knowledge to assist students in open labs.	Train faculty staffing the lab on all equipment.	Faculty are able to help students in the lab.
A significant number of students are performing poorly courses requiring open lab work.		Students learn more.
		Students are successful in their courses.

**Need, activities, and outcomes are logically linked**

Lori

Need	Activities	Outcomes
Faculty do not have adequate knowledge to assist students in open labs.	Train faculty staffing the lab on all equipment.	Faculty are able to help students in the lab.
A significant number of students are performing poorly courses requiring open lab work.		Students learn more.
		Students are successful in their courses.

## Evaluation Questions

Lori

**Activities** → **Outcomes**

Train faculty staffing the lab on all equipment.

Faculty are able to help students in the lab.

↓

Students learn more.

↓

Students are successful in their courses.

**To what extent did the training meet the needs of faculty?**

## Evaluation Questions

Lori

**Activities** → **Outcomes**

Train faculty staffing the lab on all equipment.

Faculty are able to help students in the lab.

↓

Students learn more.

↓

Students are successful in their courses.

**To what extent did the training improve the faculty's competence with lab equipment?**

## Evaluation Questions

Lori

**Activities**

Train faculty staffing the lab on all equipment.

**Outcomes**

Faculty are able to help students in the lab.

↓

Students learn more.

↓

Students are successful in their courses.

To what extent did the training improve student performance in lab-related courses?

## Evidence: Matching Data to Questions

Lori

EVALUATION QUESTION	INDICATORS	DATA SOURCES/METHODS
<b>To what extent did the training meet the needs of participating faculty?</b>	<ul style="list-style-type: none"> <li>– Faculty self-report of satisfaction, relevance, engagement</li> <li>– Degree to which training covered all lab equipment</li> </ul>	<ul style="list-style-type: none"> <li>– Interviews or surveys of participating faculty</li> <li>– Review of training content and/or PI self-report</li> </ul>

## Evidence: Matching Data to Questions

Lori

EVALUATION QUESTIONS	INDICATORS	DATA SOURCES/METHODS
<b>To what extent did the training improve the faculty's competence with lab equipment?</b>	Faculty self-report of learning	Interviews or surveys of participating faculty
	Percentage of faculty participation	Project records
	Participants' ability to operate lab equipment	Performances tasks during training
	Student satisfaction with the help they receive in labs	Surveys or interviews of students

## Evidence: Matching Data to Questions

Lori

EVALUATION QUESTIONS	INDICATORS	DATA SOURCES/METHODS
<b>To what extent did the training improve student performance in lab-related courses?</b>	Student grades on assignments requiring lab work	Provided by faculty teaching courses
	Student grades for lab-related courses.	Provided by faculty teaching courses
	Percentage of students passing courses on first attempt	Institutional data

# Evaluation

Lori

- ✓ Ask important questions about a project's processes and outcomes.
- ✓ Gather evidence that will help answer those questions.

3. Interpret the results and answer the questions.
4. Use the information for accountability, improvement, and planning.

# Interpretation

Lori

EVALUATION QUESTIONS	INDICATORS	TARGETS
<b>To what extent did the training improve student performance in lab-related courses?</b>	Student grades on assignments requiring lab work	75% of students will achieve a grade of 'C' or better on all assignments
	Student grades for lab-related courses	75% or more of students will achieve course grade of 'C' or better in
	Percentage of students passing classes on first attempt	Increase from 50% to at least 75%

Compare results with targets in order to answer questions

# Evaluation

Lori

- ✓ Ask important questions about a project's processes and outcomes.
  - ✓ Gather evidence that will help answer those questions.
  - ✓ Interpret the results and answer the questions.
3. Use the information for accountability, improvement, and planning.

## Using Evaluation

### Accountability

- Include results in your annual report to NSF

Lori

## Using Evaluation

### Accountability

- Include results in your annual report to NSF

### Improvement

- Monitor results as data are gathered to determine if changes are needed in implementation

### Planning

- Determine what worked and what didn't as you plan your next project
- Summarize outcomes and lessons learned in your next proposal's "Results of Prior NSF Support" section

Lori

## Evaluation

- ✓ Ask important questions about a project's processes and outcomes.
- ✓ Gather evidence that will help answer those questions.
- ✓ Interpret the results and answer the questions.
- ✓ Use the information for accountability, improvement, and planning.

Lori

The screenshot shows a Blackboard Collaborate webinar interface. On the left, there is a sidebar with a video player (currently black), a 'PARTICIPANTS' list, and a chat area. A call to action bubble in the chat area says 'Type questions here'. The main content area is titled 'Questions & Comments' and contains a list of topics, each with a small thumbnail image of the speaker(s):

- Introduction to ATE Funding
- Comments & Questions Break
- Right-sizing Evaluation for Small Projects
- COMMENTS & QUESTIONS**
- Evaluation in the ATE Program
- Comments & Questions Break
- Cost-saving Strategies for Economical Evaluation
- Final Questions, Closing Remarks, Survey

**Evaluation  
in the  
ATE Program**

**Lori  
Wingate**

## ATE Program Goals

- produce more qualified science and engineering technicians to meet workforce demands
- improve the technical skills and the STEM preparation of these technicians and the educators who prepare them

## ATE Program Goals

- produce more qualified science and engineering technicians to meet workforce demands
- improve the technical skills and the STEM preparation of these technicians and the educators who prepare them

Lori

**Your project's job is to make a contribution to these goals.**

**Your evaluation's job is to determine the merit, worth, and significance of your contribution.**

**“What does  
NSF want to  
see in a  
project  
evaluation?”**

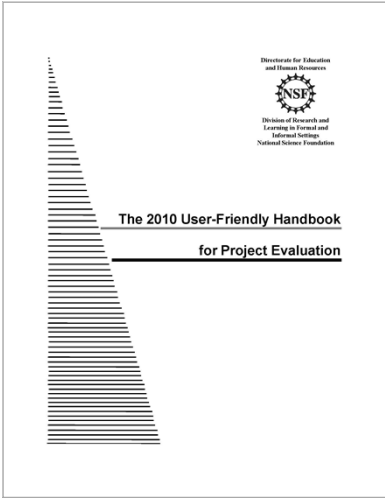

Lori

**Ask your  
program  
officer!**

Lori

**(If you're not sure who your PO is, find out!)**

## NSF Expectations for Evaluation

Read the solicitation carefully for clues and cues for expectations for ATE project evaluation

**Advanced Technological Education (ATE)**  
PROGRAM SOLICITATION  
NSF 11-692

REPLACES DOCUMENT(S):  
NSF 10-539

National Science Foundation  
Directorate for Education & Human Resources  
Division of Undergraduate Education  
Research on Learning in Formal and Informal Settings

Full Proposal Deadline(s) (due by 5 p.m. proposer's local time):  
October 20, 2011  
October 16, 2012  
October 17, 2013

**IMPORTANT INFORMATION AND REVISION NOTES**

A revised version of the NSF Proposal & Award Policies & Procedures Guide (PAPPG), NSF 13-1, was issued on October 4, 2013 and is effective for proposals submitted, or due, on or after January 16, 2013. Please be advised that the guidelines contained in NSF 13-1 apply to proposals submitted in response to this funding opportunity. Proposals who opt to submit prior to January 14, 2013, must also follow the guidelines contained in NSF 13-1.

Please be aware that significant changes have been made to the PAPPG to implement revised merit review criteria based on the National Science Board (NSB) report, National Science Foundation's Best System Criteria: Review and Revision. While the NSB report makes other terms unchanged (Dissemination and Broader Impacts), guidance has been provided to clarify and improve the content of the report. Changes will affect the project rationale and project description sections of proposals. Annual and final reports will also be affected.

A by-chapter summary of this and other significant changes is provided at the beginning of both the Grant Proposal Guide and the Grant & Award Administration Guide.

Please note that this proposal solicitation may contain supplemental proposal preparation guidance and/or guidance that deviates from the guidelines established in the Grant Proposal Guide.

A revised version of the NSF Proposal & Award Policies & Procedures Guide (PAPPG), NSF 13-1, was issued on October 4, 2013 and is effective for proposals submitted, or due, on or after January 16, 2013. Please be advised that the guidelines contained in NSF 13-1 apply to proposals submitted in response to this funding opportunity.

**Cost Sharing:** The PAPPG has been revised to implement the National Science Foundation's policy on cost sharing. Cost sharing is required for the project and must be reported in the proposal. It should be noted that the guidelines contained in NSF 13-1 may require more cost sharing in order to be eligible for funding.

## NSF Expectations for Evaluation

Lori

### ATE-Specific INTELLECTUAL MERIT Criteria about Evaluation:

“ Is the evaluation likely to provide useful information to the project and others? ”

“ The most important purpose of evaluation is not to prove, but to improve. ”

—Daniel Stufflebeam

## NSF Expectations for Evaluation

Lori

### CURRICULUM AND EDUCATIONAL MATERIALS DEVELOPMENT PROJECTS

“ Evaluation activities are deep and broad, demonstrating the impact of the project on many students and faculty. Evaluation must include measures of increased student learning of content and processes and have input from employers. ”

## NSF Expectations for Evaluation

Lori

### CURRICULUM AND EDUCATIONAL MATERIALS DEVELOPMENT PROJECTS

“ Evaluation activities are deep and broad, **demonstrating the impact of the project on many students and faculty.** Evaluation must include measures of increased student learning of content and processes and have input from employers. ”

## NSF Expectations for Evaluation

Lori

### CURRICULUM AND EDUCATIONAL MATERIALS DEVELOPMENT PROJECTS

“ Evaluation activities are deep and broad, demonstrating the impact of the project on many students and faculty. Evaluation must include **measures of increased student learning** of content and processes and have input from employers. ”

## NSF Expectations for Evaluation

Lori

### CURRICULUM AND EDUCATIONAL MATERIALS DEVELOPMENT PROJECTS

“ Evaluation activities are deep and broad, demonstrating the impact of the project on many students and faculty. Evaluation must include measures of increased student learning of content and processes and have **input from employers.** ”

## NSF Expectations for Evaluation

Lori

### PROFESSIONAL DEVELOPMENT PROJECTS

“ Evaluation should demonstrate use in the classrooms and sustainable changes in practice of participating faculty and teachers. Changes in student learning outcomes as well as students' perceptions of technical careers should be measured.”

## NSF Expectations for Evaluation

Lori

### PROFESSIONAL DEVELOPMENT PROJECTS

“ Evaluation should **demonstrate use in the classrooms and sustainable changes in practice of participating faculty and teachers.** Changes in student learning outcomes as well as students' perceptions of technical careers should be measured.”

## NSF Expectations for Evaluation

Lori

### PROFESSIONAL DEVELOPMENT PROJECTS

“ Evaluation should demonstrate use in the classrooms and sustainable changes in practice of participating faculty and teachers. **Changes in student learning outcomes as well as students' perceptions of technical careers should be measured.**”

## NSF Expectations for Evaluation

Lori

### PROGRAM IMPROVEMENT AND DEVELOPMENT PROJECTS

“ Evaluative activities should provide evidence on the extent to which the project goals and objectives are realized.”

## NSF Expectations for Evaluation

Lori

### PROGRAM IMPROVEMENT AND DEVELOPMENT PROJECTS

“ Evaluative activities should provide **evidence** on the extent to which the project goals and objectives are realized.”

## NSF Expectations for Evaluation

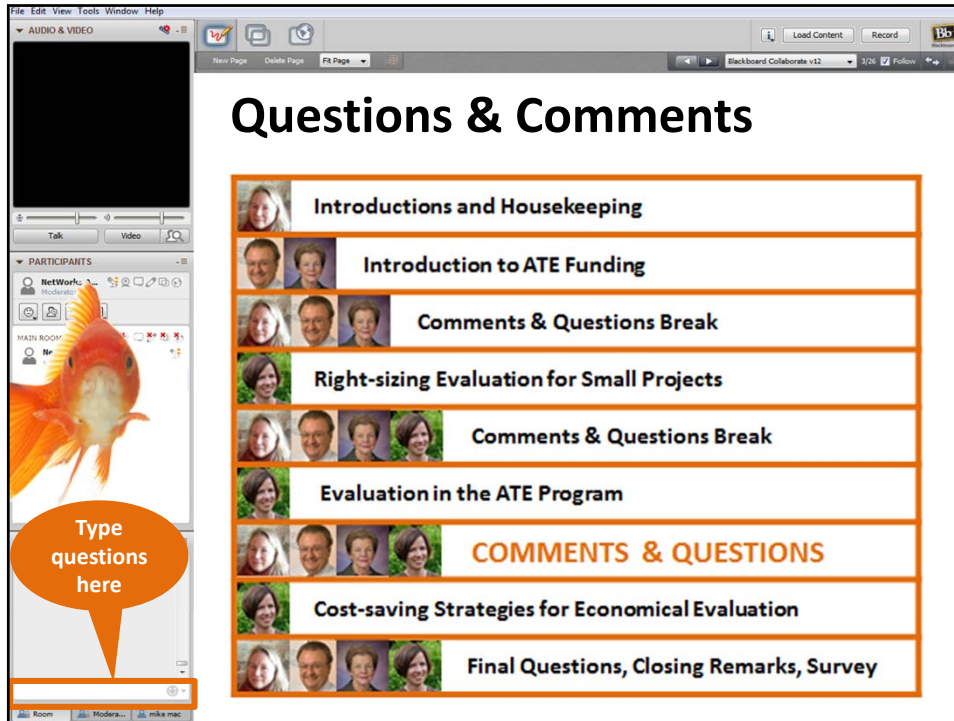

Lori

### BUT WAIT!

A new solicitation for 2014 proposals will be issued soon

The screenshot shows a Blackboard Collaborate webinar interface. The main content area is titled "Questions & Comments" and contains a table of contents with the following items:

	Introductions and Housekeeping
	Introduction to ATE Funding
	Comments & Questions Break
	Right-sizing Evaluation for Small Projects
	Comments & Questions Break
	Evaluation in the ATE Program
	<b>COMMENTS &amp; QUESTIONS</b>
	Cost-saving Strategies for Economical Evaluation
	Final Questions, Closing Remarks, Survey

On the left side of the interface, there is a "PARTICIPANTS" list and a chat area. A speech bubble in the chat area says "Type questions here".

**Cost-saving Strategies for Economical Evaluation**

**Lori Wingate**

## Investing in Evaluation

Lori

**Evaluation is too small:** *Minimal investment yields minimal return.*    **Evaluation is too big:** *Drains resources away from project implementation.*    **Evaluation is just right:** *Adds value to the project.*

## Budgeting for ATE Evaluation

Lori

“ The funds to support an evaluator independent of the project or center must be requested and the requested funds must match the scope of the proposed evaluative activities. ”

## Budgeting for ATE Evaluation

Lori

“ The funds to support an **evaluator independent of the project or center** must be requested and the requested funds must match the scope of the proposed evaluative activities. ”

## What makes an evaluator **INDEPENDENT?**

Lori

- Does not have other roles on the project
- Is not supervised by someone who works on the project
- Has no financial or intellectual stake in the project's success

## Degrees of evaluator independence (externality)

Lori

- Internal to project
- External to project, but internal to institution
- External to both project and institution

**MUST have an external evaluator**

## Degrees of evaluator independence (externality)

Lori

- Internal to project
- External to project, but internal to institution
- External to both project and institution

**MAY also have an internal evaluator**

## Budgeting for ATE Evaluation

Lori

“ The funds to support an evaluator independent of the project or center must be requested and the requested funds must match the scope of the proposed evaluative activities. ”

## Budgeting for ATE Evaluation

Lori

“ The funds to support an evaluator independent of the project or center must be requested and the **requested funds must match the scope of the proposed evaluative activities.** ”

## How much does evaluation cost?

Lori

On average, ATE projects allocate **8%** of their budgets to evaluation

Median expenditure among small projects: **\$5,000/year**

## How much do evaluators get paid?

Lori

Salaries vary widely:

~\$200/day to ~\$2,000/day

*For illustration*

Average daily rate of a U.S. associate professor: **\$640/day**

\$15,000 total evaluation budget

\$640 daily rate

= **23 days total** (not accounting for travel and other costs)

< **8 days/year**

## Cost-saving Strategies

Lori

1. Develop a tracking system to monitor project reach and participation.
2. Maintain a record of key project activities and accomplishments
3. Utilize institutional research data to the fullest extent possible.
4. Leverage internal and external evaluation to answer the most important questions.

## Cost-saving Strategies

Lori

1. Develop a tracking system to monitor project reach and participation.
2. Maintain a record of key project activities and accomplishments
3. Utilize institutional research data to the fullest extent possible.
4. Leverage internal and external evaluation to answer the most important questions.

# Keep good records!

## Cost-saving Strategies

Lori

1. **Develop a tracking system to monitor project reach and participation.**
2. Maintain a record of key project activities and accomplishments
3. Utilize institutional research data to the fullest extent possible.
4. Leverage internal and external evaluation to answer the most important questions.

## 1. Develop a tracking system to monitor project reach and participation.

Lori

Use spreadsheet or database software to keep a log of

**WHO PARTICIPATED** and their

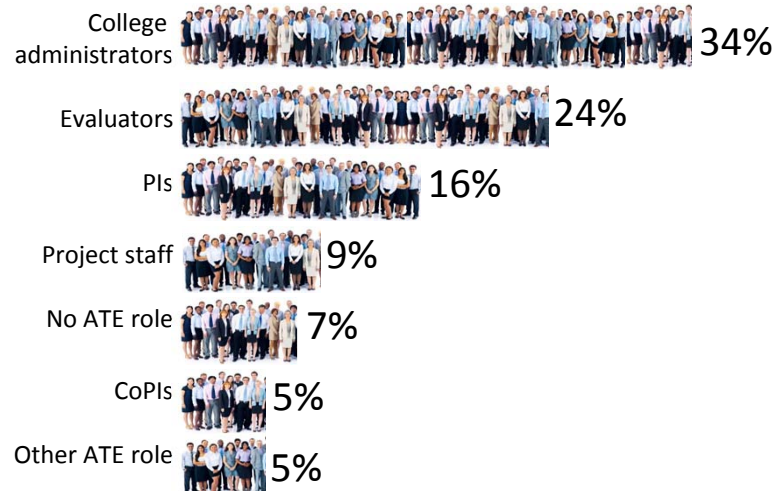

- ✓ key demographics
- ✓ contact information
- ✓ involvement in the project, including dates

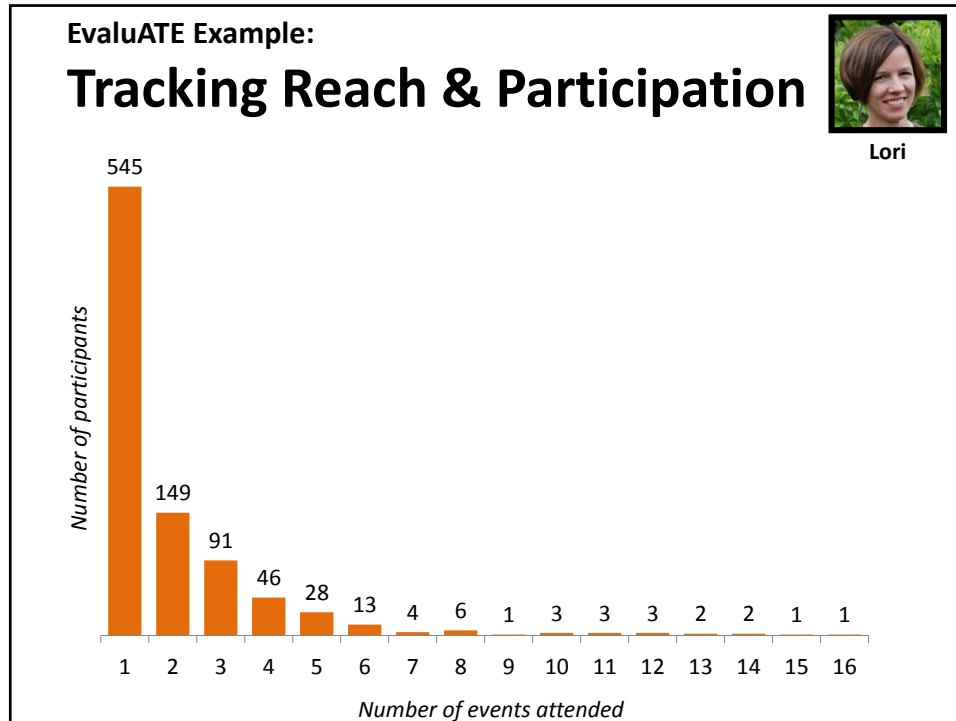

EvaluATE Example:

## Tracking Reach & Participation

Lori

## Tracking Reach & Participation

Data on project participants are also needed for

- NSF annual reports
- ATE annual survey

Lori

## Cost-saving strategies

Lori

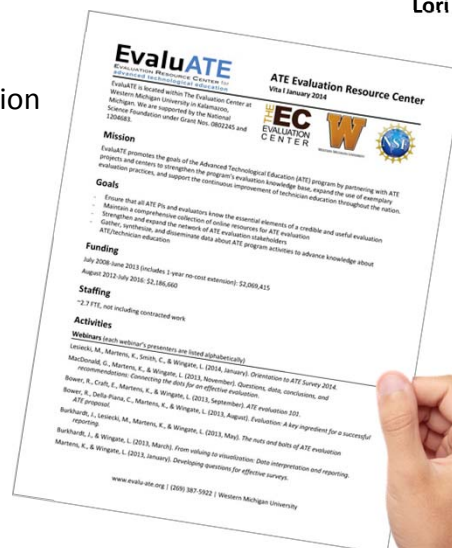

1. Develop a tracking system to monitor project reach and participation.
2. **Maintain a record of key project activities and accomplishments.**
3. Utilize institutional research data to the fullest extent possible.
4. Leverage internal and external evaluation to answer the most important questions.

## 2. Maintain a record of key project activities and accomplishments.

Lori

A vita for project or center provides succinct documentation of your past performance and capacity for future work

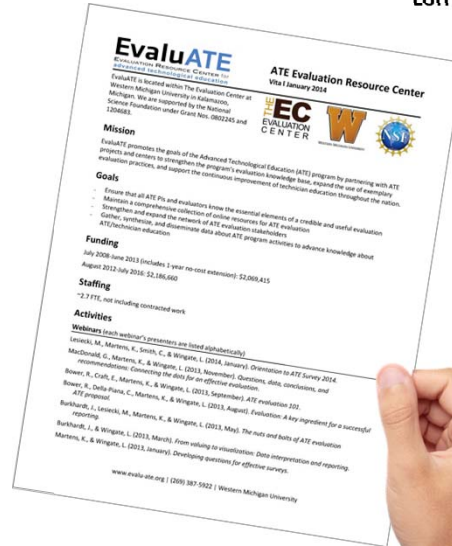

## 2. Maintain a record of key project activities and accomplishments.

Lori

- Mission
- Goals
- Funding
- Staffing levels
- Activities/Deliverables
- Personnel (including paid staff, consultants, and collaborators)

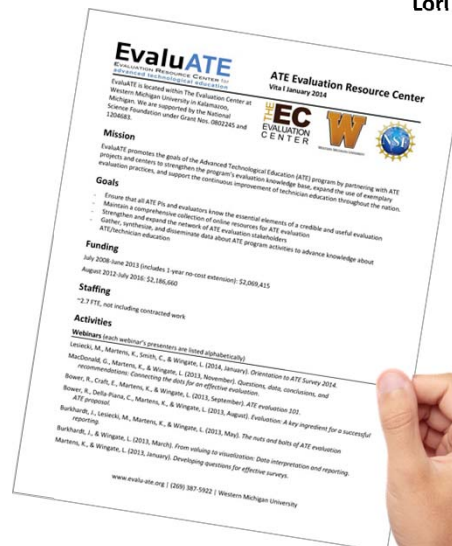

## 2. Maintain a record of key project activities and accomplishments.

Lori

Puts lots of the information you'll need for your NSF annual report at your fingertips

## Cost-saving strategies

Lori

1. Develop a tracking system to monitor project reach and participation.
2. Maintain a record of key project activities and accomplishments (e.g., a project fact sheet or vita).
3. **Utilize institutional research data to the fullest extent possible.**
4. Leverage internal and external evaluation to answer the most important questions.

## Institutional Data

Lori

### Common Data Elements

- student ID
- demographics
- program of study
- retention
- graduation
  
- track over time
- create comparison group

Make friends with your institutional research person now.

Find out how and when requests should be submitted.

## Cost-saving strategies

Lori

1. Develop a tracking system to monitor project reach and participation
2. Maintain a record of key project activities and accomplishments (e.g., a project fact sheet or vita)
3. Utilize institutional research data to the fullest extent possible.
4. **Leverage internal and external evaluation to answer the most important questions.**

## 4. Leverage internal and external evaluation to answer the most important questions.

Lori

## External Evaluator as Coach

Lori

External evaluator provides guidance and feedback to the project team throughout the project.

## External Evaluator as Heavy-Lifter

Lori

- External evaluator plays lead role in planning the evaluation, designing instruments, analyzing results, and writing the report
- Project team gathers **data**

## External Evaluator as Architect

Lori

- External evaluator designs the overall evaluation and data collection instruments.
- Project team executes the plan.

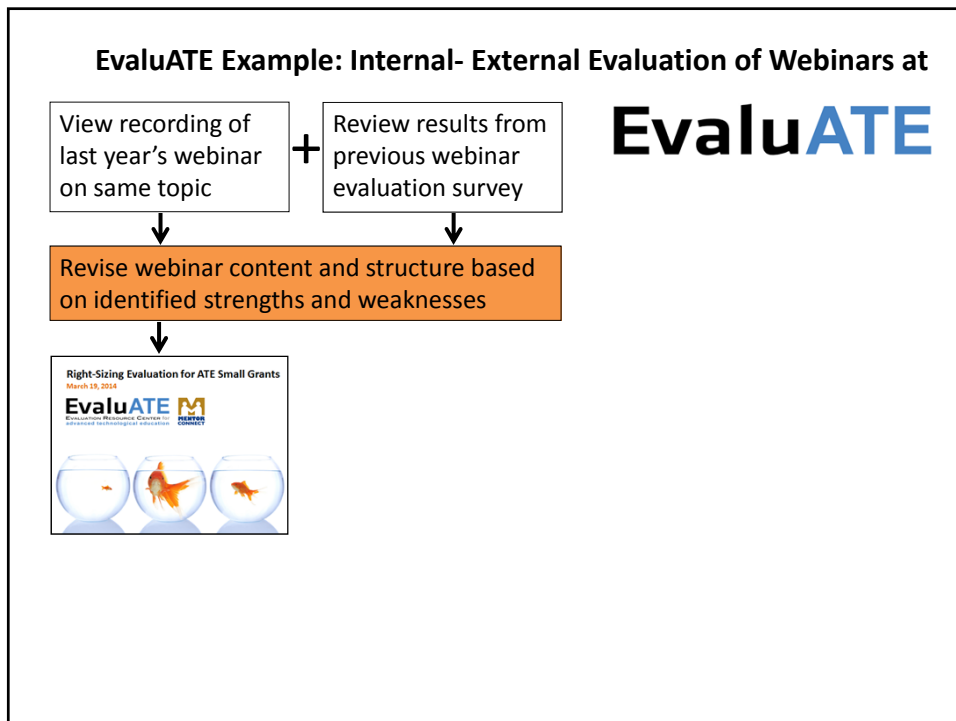

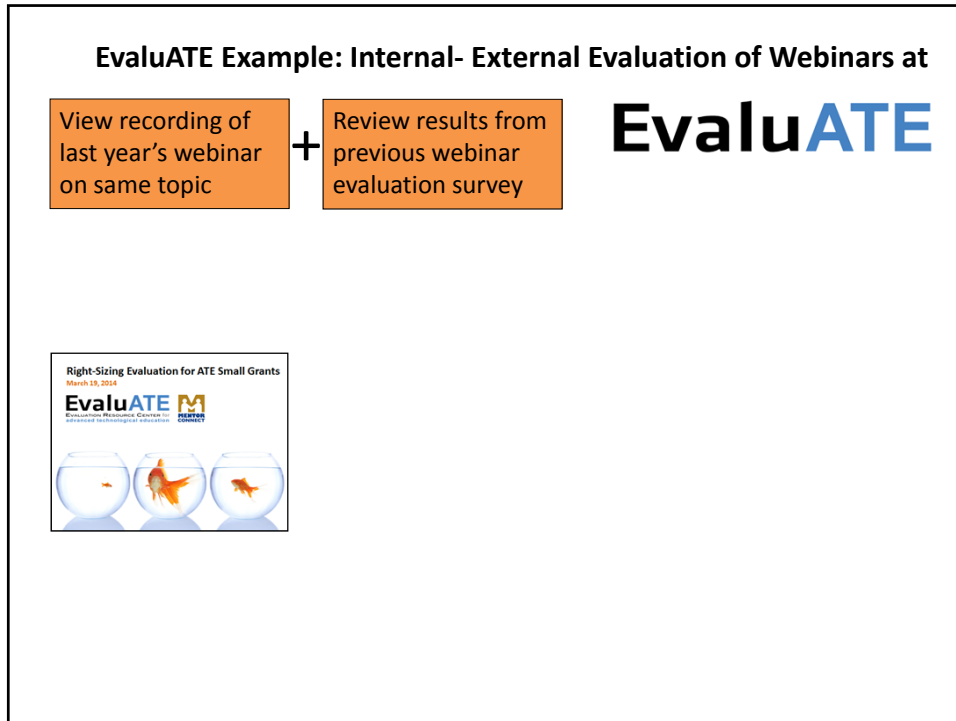

## Divide and Conquer

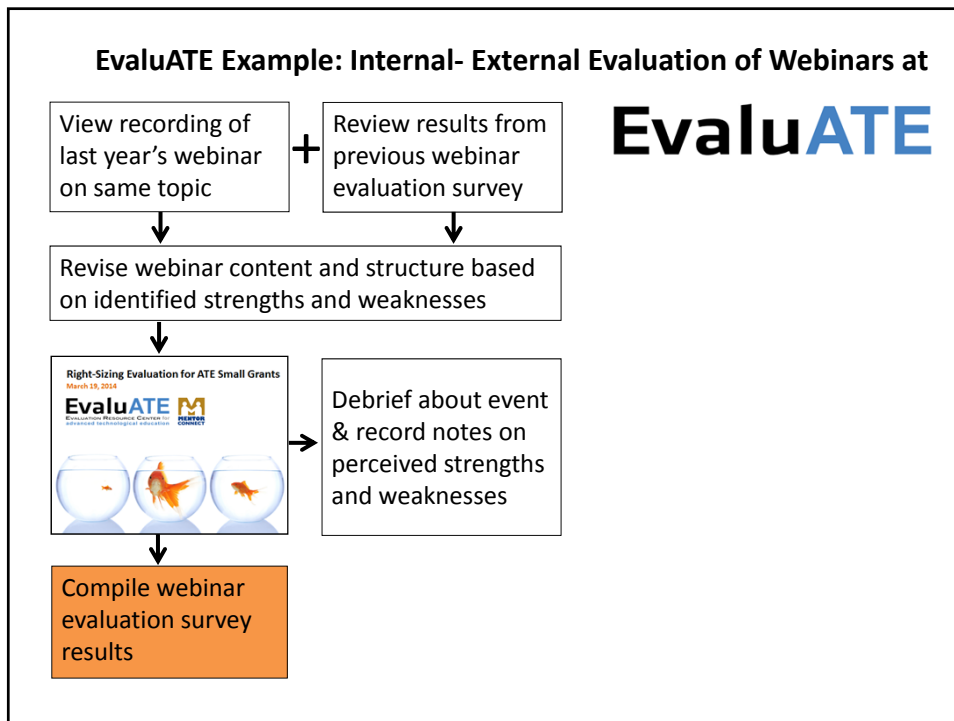

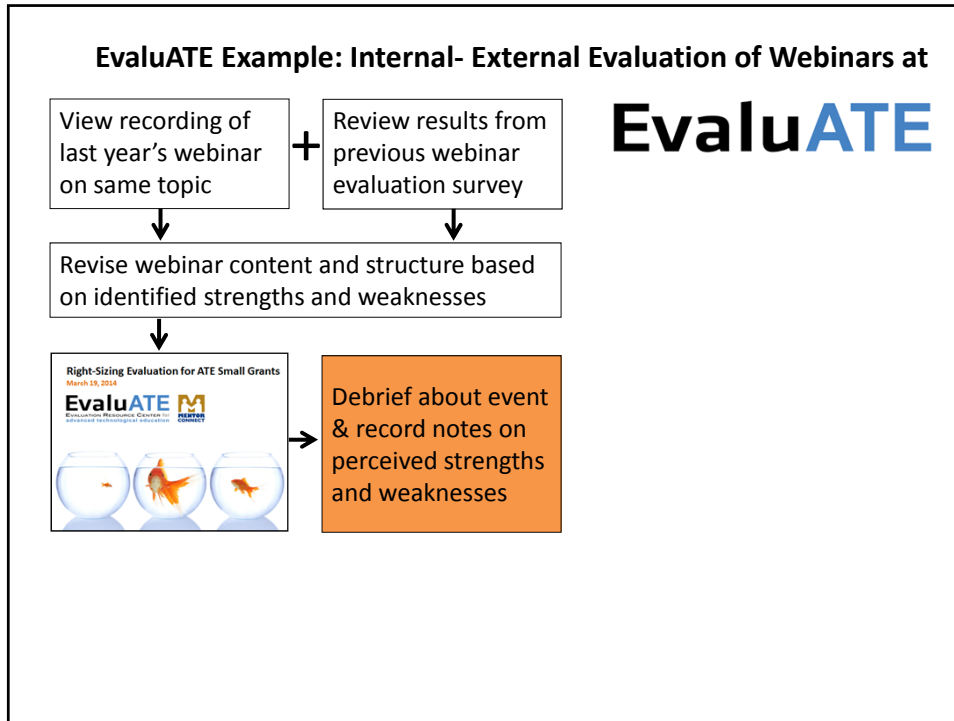

Lori

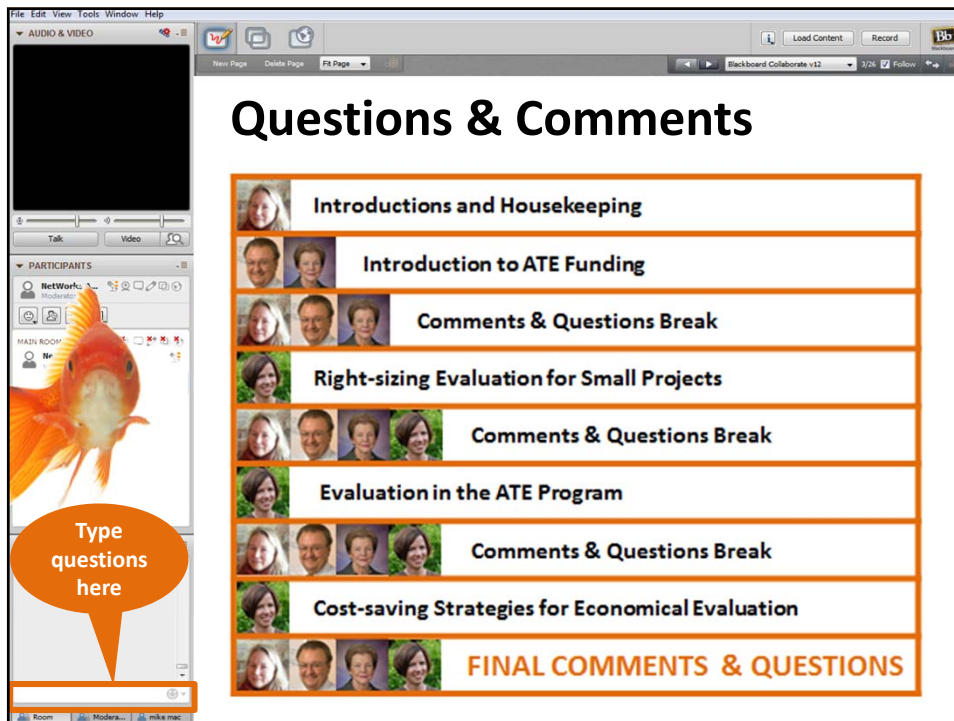

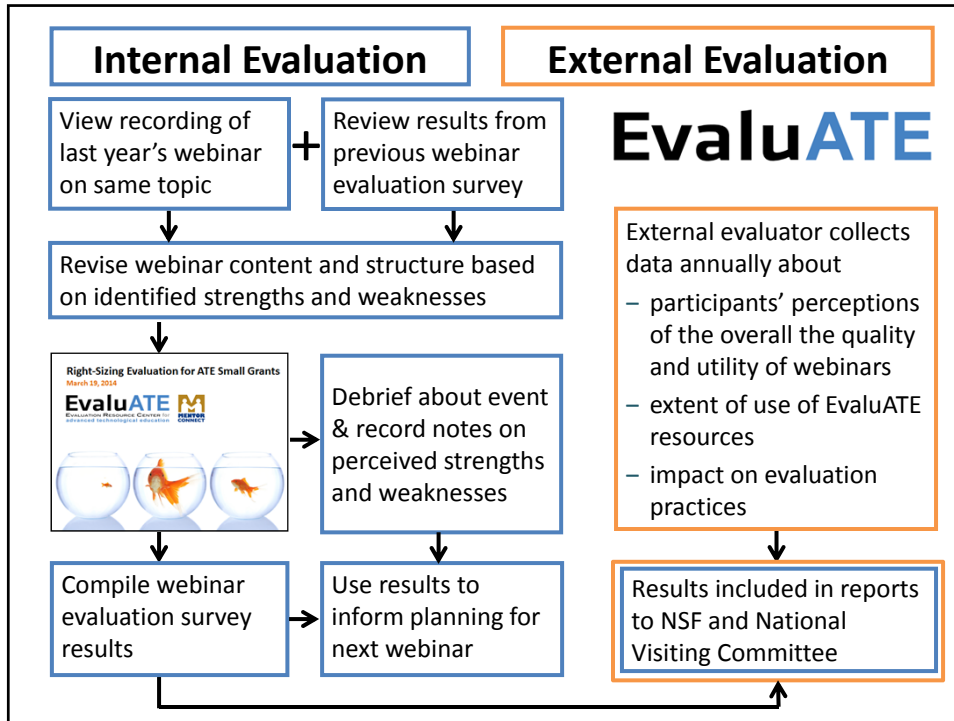

- Internal team responsible for evaluation of reach, participation, and immediate outcomes.
- External evaluator responsible for evaluation for longer-term outcomes.

Introducing...

# FAS4ATE

FORMATIVE ASSESSMENT SYSTEMS FOR ATE

This material is based upon work supported by the National Science Foundation under grant number 1349079. Any opinions, findings, and conclusions or recommendations expressed in this material are those of the author and do not necessarily reflect the views of NSF.

## FAS4ATE

FORMATIVE ASSESSMENT SYSTEMS FOR ATE

**The FAS4ATE project seeks to identify key evaluation questions and data to help PIs make real-time changes to improve their projects**

**FAS4ATE**  
FORMATIVE ASSESSMENT SYSTEMS FOR ATE

They are seeking PIs and evaluators interested in engaging in a process of logic modelling and evaluation planning, culminating in a one day workshop

**FAS4ATE**  
FORMATIVE ASSESSMENT SYSTEMS FOR ATE

Participants will have the opportunity to develop logic and evaluation models specific to their projects, identify real time data sources, plan for data collection systems and **interact with colleagues working in the same program areas**

FORMATIVE ASSESSMENT SYSTEMS FOR ATE

**WEBINAR INVITATION:**

***Making a Logic Model that Works for You***

May 21, 2014, 1-2:30 EDT

The EvaluATE logo is on the left, with the text "EvaluATE" in a large, blue, sans-serif font, and "EVALUATION RESOURCE CENTER for advanced technological education" in a smaller, blue, sans-serif font below it. To the right is a graphic featuring a woman's face on the right side, looking towards the left. Overlaid on the graphic is a network diagram with green lines and nodes. Labels include "outcomes", "impact", "evaluation", "process", and "search". A search bar is visible at the bottom left of the graphic.
