

# ELECTRONICS MAKER BOOTCAMP

## SUMMER CAMPS 2018

June 18-21, 2018

Girls and Boys ages 12-17

Cost: \$225

**Monday - Thursday**  
9:00 a.m. - 4:00 p.m.

**IRSC**

Brown Center  
for Innovation  
and Entrepreneurship  
Y-122

**To Register &  
For More Information,**  
call 772.462.7179

or  
email [info@laser-tec.org](mailto:info@laser-tec.org)

Indian River State College  
3209 Virginia Avenue  
Fort Pierce, FL 34981

[www.laser-tec.org](http://www.laser-tec.org)

**Explore** the world of electronic circuitry and how different components alter the way it behaves.

**Build** prototype circuits on a breadboard and apply it to a Printed Circuit Board (PCB).

**Learn** the art of soldering utilizing equipment used by professionals.

**Use** professional test equipment found in most industrial settings such as function generators, oscilloscopes, multimeters and more.

*Facilitated by educators versed in the field of electrical engineering, programming, and inquiry-based learning.*

*Coordinated by LASER-TEC, NSF ATE Regional Center for Laser and Fiber Optics Education.*
