

National Resource Center for Materials Technology Education Core Competencies for General, Materials and Marine Technicians Tidewater Community College Maritime Industry Focus Group March, 2010

			Classification System:	Importance	Gen- -eral		Marine
			19 Categories 0, 1, 2, etc.	Rating Scale:		10.10	
			75 Competency Concentrations A, B, C, etc.	1 = vital	Tech	Tech	Tech
			386 Performance indicators a1, a2, a3, etc.	2 = important	G	М	
				3 = desirable			•
			Each competency begins with "ability to"	4 = unimportant			
Cat	teg	ory	Competency Concentration	Area	I	mport	ance
			•				
0			BASIC COMPETENCIES RELATED TO WORK AS	A TECHNICIAN	G	М	Marine
	Α		Demonstrate Good Communication Skills		1	1	1
		a1	Demonstrate ability to listen and comprehend instru	uctions	1	1	1
			Demonstrate ability to read and comprehend Englis		1	1	1
			Interpret specific instructions from supervisor		1	1	1
			Demonstrate ability to write clear letters, instruction	ns, reports	2	1	1
			Use e-mail, FAX and other electronic means of com-		2	2	2
			Communicate non-documented process to fellow en		2	2	2
			Read non-English information such as materials spe		3	2	2
			,				
	В		Prepare Tests and Analyze Data		1	1	1
		b1	Prepare tests and record test details and data neatl	v and accurately	1	1	1
			Demonstrate good lab notebook skills	,	1	1	1
			Analyze test data, compare and contrast informatio	n, draw rational	2	1	1
			conclusions	,			
	С		Demonstrate Good Workplace Performance Me	ethods	1	1	1
		c1	Demonstrate good workplace safety methods		1	1	1
			Recall company practices on timeliness, attendance confidentiality	, punctuality, diversity,	1	1	1
		c3	Practice good time management and housekeeping	skills	1	1	1
			Work effectively in teams within the workforce or gi		1	1	1
			Demonstrate flexibility, willingness to learn and abil	•	1	1	1
			Recognize what needs to be done to solve a probler accomplish it		1	1	1
		c7	Exercise independent judgment and willingness to a	assume responsibility	2	1	1
			Apply problem solving methods and continuous imp		2	2	2
			Perform job functions demanding manual dexterity, strength		2	2	2
		c10	Effectively break out non-documented tasks into a s	series of tasks or activities	2	2	2
	D		Demonstrate General Technical Competence		1	1	1
		d1	Recall key job-related information (processes, referacronyms)	ences, terminology,	1	1	1
		d2	Show good observations skills during demonstration equipment operation	ns of processes or	1	1	1
		d3	Perform troubleshooting of equipment and instrume	entation	1	1	1
			Perform basic setup, diagnosis and repair of industr		1	1	1
	1		equipment	in indianing and	1 -		-

		d5	Use vendor catalogs to acquire materials and components for work tasks	2	2	2
			Identify the need and process for the removal of hazardous materials (RoHM)	2	2	2
1			MEASUREMENT AND BASIC TECHNICAL SKILLS			
	Α		Carry Out Measurements of Dimensions and of Physical Phenomena	1	1	1
		a1	Measure accurately hardness, impact strength and related properties of	2	1	1
			materials			
		a2	Measure accurately tensile, compressive and shear properties of materials	2	1	1
			Measure accurately dimensions using scales, micrometers and related tools	1	1	1
		a4	Demonstrate knowledge of order of magnitude of measurements and scales	1	1	1
		a5	Measure accurately temperature, pressure, force, torque and related	1	1	1
			quantities			
			Perform tests of physical properties such as density, viscosity, pH, etc.	2	1	1
			Use correct terms for weight, mass and density in technical tasks	1	1	1
			Measure accurately mass using appropriate devices	2	1	1
		a9	Perform calibration of instruments and describe the importance of proper	1	1	1
		4.0	calibration			
			Describe the difference between precision and accuracy	2	1	1
			Apply precision metrology devices and inspection tools	2	2	2
			Describe and apply effectively a variety of types of thermocouples	2	2	2
		a13	Use and apply vapor pressure data for water, solvents and other liquids	3	3	3
	_		Total word Task visal Durwin va		-	_
	В	h 1	Interpret Technical Drawings	2	2	2
			Read and interpret technical drawings	<u>1</u> 2	2	2
			Interpret and apply tolerances on component dimensions and specifications	3	3	3
1		03	Read specifications on non-English technical drawings	G G	M	Marine
<u> </u>			Measurement and Basic Technical Skills, continued	G	141	Marine
	С		Demonstrate Laboratory Skills	2	1	1
		c1	Demonstrate familiarity with good laboratory practice	1	1	1
			Use a microscope for measurement and observation of material structures	2	1	1
			Operate a digital camera to obtain high quality images of technical objects	2	1	1
			Select appropriate devices and instruments for measurement of physical	_		1
				2		
				2	1	1
		с4	phenomena		1	_
		c4 c5	phenomena Operate successfully basic shop machinery and tools	1	1 2	2
		c4 c5 c6	phenomena Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators	1 2	1 2 2	2 2
		c4 c5 c6 c7	phenomena Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units	1 2 2	1 2 2 2	2 2 2
		c4 c5 c6 c7	phenomena Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators	1 2	1 2 2	2 2
	D	c4 c5 c6 c7	phenomena Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units	1 2 2	1 2 2 2	2 2 2
	D	c4 c5 c6 c7 c8	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and	1 2 2 2	1 2 2 2 2 2	2 2 2 2
	D	c4 c5 c6 c7 c8	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity	1 2 2 2 2	1 2 2 2 2 2 2	2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena	1 2 2 2 2 2	1 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials	1 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3 d4	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations	1 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3 d4	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations Perform successfully soldering operations for electrical connections	1 2 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3 d4 d5 d6	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations Perform successfully soldering operations for electrical connections Analyze and apply basic DC and AC circuits	1 2 2 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3 d4 d5 d6 d7	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations Perform successfully soldering operations for electrical connections Analyze and apply basic DC and AC circuits Demonstrate proper use of the electrical relationship V = IR	1 2 2 2 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3 d4 d5 d6 d7	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations Perform successfully soldering operations for electrical connections Analyze and apply basic DC and AC circuits	1 2 2 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2 2
	D	c4 c5 c6 c7 c8 d1 d2 d3 d4 d5 d6 d7	phenomena Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations Perform successfully soldering operations for electrical connections Analyze and apply basic DC and AC circuits Demonstrate proper use of the electrical relationship V = IR Perform electrical circuit bread boarding	1 2 2 2 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2 2 2
2	D	c4 c5 c6 c7 c8 d1 d2 d3 d4 d5 d6 d7	Operate successfully basic shop machinery and tools Operate air and gas flow systems and pressure and flow regulators Operate vacuum equipment and read vacuum data in appropriate units Practice good operating methods in clean rooms Apply Electrical Phenomena to Physical Measurements Use a digital millimeter for measurement of resistance, current , voltage and continuity Use sensors for measurement of physical phenomena Measure electrical conductivity and other electrical properties of materials Apply principles of electricity and electronics to measurement and equipment operations Perform successfully soldering operations for electrical connections Analyze and apply basic DC and AC circuits Demonstrate proper use of the electrical relationship V = IR	1 2 2 2 2 2 2 2 2 2 2 2	1 2 2 2 2 2 2 2 2 2 2 2 2	2 2 2 2 2 2 2 2 2 2 2 2

			etc			
		-2		1	- 1	1
			Show that data, calculations and results are reasonable	1	1	1
			Use mental arithmetic and calculators as computation tools	1	1	1
		a4	Prepare and interpret graphs using a variety of scales and presentation techniques	2	1	1
	В		Demonstrate Proper Use of Units and Conversions	1	1	1
		b1	Manipulate and report accurately units for all calculations	1	1	1
			Perform conversion of units from one systems to another	1	1	1
			Demonstrate use of significant figures, accuracy and precision	1	1	1
			Use accurately both U.S. customary units and the International System of	2	1	1
			Units (ISU)		-	_
			Annie Constant and Trings and this formation			2
	С		Apply Geometry and Trigonometric Functions	2	2	2
			Utilize concepts of perimeter, area and volume of basic shapes	1	1	1
			Apply concepts of angles and triangles	2	2	2
		c3	Demonstrate concepts of trigonometry, including sine, cosine, tangent and related functions	2	2	2
	D		Demonstrate Appropriate Use of Algebra and Functions	2	2	2
		d1	Apply concepts of algebra to solve equations for desired results	2	2	2
			Demonstrate proper use of slope and rate of change	2	2	2
			Analyze functions such as linear, exponential, quadratic, polynomial and	2	2	2
			logarithmic	_	_	_
		d4	Work effectively with inequalities	3	2	2
		۷.	Work enectively with inequalities			
	Е		Demonstrate Appropriate Use of Statistics	2	2	2
		1 م	Compute the mean, median and standard deviation of data sets	2	1	1
				2	2	2
			Apply the fundamentals of statistics and probability	2	2	2
			Make inferences based on data analysis and measurements of variability			
		е4	Apply concepts of the normal curve	2	2	2
3			COMPUTER SKILLS			
	Α		Practice Appropriate Computer Skills and Uses	1	1	1
		a1	Exercise understanding of inappropriate usages of computer systems	1	1	1
			Demonstrate adherence to computer security policies	1	1	1
			Demonstrate good keyboard skills	1	1	1
			Use e mail and text messaging effectively and with good grammar and	2	1	1
			spelling			
	В		Demonstrate Use of Computer Applications	2	1	1
		b1	Create and use spreadsheets for data analysis, graphing, record keeping and other uses	2	1	1
		b2	Use the internet effectively for researching and acquiring technical information	2	1	1
		b3	Create quality written documents using word processing	2	1	1
3			Computer Skills, continued	G	M	Marine
	В		Demonstrate Use of Computer Applications, continued	2	1	1
	_	h/l	Create and use database applications (Marine =Use, not create)	2	1	1
			Integrate documents containing word processing, spreadsheets and graphics	2	2	2
		บว	princegrate documents containing word processing, spreadsneets and graphics	۷		
			Annly Tachnical Coffware to Dynatics	-	<u> </u>	2
	С	4	Apply Technical Software to Practice	2	2	2
		C1	Use commercially available software for analysis, data acquisition and similar tasks	2	2	2
						_

		c2	Create and modify technical drawings using computer aided design, including 3D modeling	2	2	2
		c3	Demonstrate use of computational software such as Matlab, MathCAD, finite element analysis	3	2	2
4			Teamwork, Professionalism, Globalism and Multicultural Skills			
_			Teamwork, Professionalism, Globalism and Muticultural Skills			
	Α		Demonstrate Effective Work With Teams	1	1	1
	^	a 1	Work productively in an industrial team environment	_	1	1
			Demonstrate understanding of the behavior of successful teams	1	2	2
-				1	1	1
		as	Manage conflict effectively and with sensitivity to the needs and perceptions of others		1	1
	В		Determine and Develop Effective Project Interactions	2	2	2
-	D	h 1		2	2	2
			Plan and track work flow using the principles of project management (Marine-not necessary to plan and track, just use)			
			Describe the functions of various departments commonly found in industry	2	2	2
			Plan effective agendas for meetings	2	2	2
		b4	Conduct effective meetings (Marine- how to attend and behave at a meeting)	3	2	2
	С		Show Personal Professionalism	1	1	1
			Manage time efficiently	1	1	1
		c2	Demonstrate adherence to the human resource policies of the employer	1	1	1
			Practice proper personal hygiene	1	1	1
		c4	Effectively adopt and adapt skills and knowledge acquired during training	1	1	1
			Display the personal and ethical characteristics necessary to be identified as a professional	1	1	1
		c6	Describe the practice the basic principles of intellectual property protections	2	2	2
			Demonstrate life-long learning and plan and track personal professional growth	2	2	2
		с8	Demonstrate good presentation skills for small groups and larger audiences	2	2	2
	D		Demonstrate Cultural Awareness in the Workplace	2	2	2
			Demonstrate awareness of cultural differences to facilitate effective communication among workers	2	2	2
			Apply a basic understanding of human behavior in dealing with workplace issues	2	2	2
	E		Recognize Where a Global Perspective Should Be Used in the Workplace	2	2	2
		e1	Demonstrate basic knowledge of the global economic system	2	2	2
			Demonstrate basic understanding of global economic trends	2	2	2
			Identify key elements of import and export strategies and global trade issues	3	3	3
			, , , , , , , , , , , , , , , , , , , ,			
5			CHEMICAL SCIENCE SKILLS			
	A		Apply Safe and Environmentally Appropriate Methods to Chemical Handling	1	1	1
		a1	Demonstrate safe handling of acids, bases, flammable liquids, cryogenic fluids and compressed. gasses	1	1	1
		a2	Apply safely the information available in Material Safety Data Sheets	1	1	1
			Apply knowledge of chemical and environmental safety including waste	1	1	1
			disposal and recycling Define flammability hazards of solvents such as flash point and explosive	2		_
			potential		1	1
		E	Demonstrate understanding of the interactions of science and technology	2	2	2

		with society			
В		Demonstrate Knowledge of Chemistry Fundamentals	2	1	1
-	+	Read basic chemical compound abbreviations, e.g.HCl as hydrochloric acid	2	1	1
		Demonstrate knowledge of chemical symbols and the periodic table of the elements	2	1	1
	b3	Demonstrate understanding of chemical concentrations and what they mean	2	1	1
	b4	Explain the importance of material compatibility	2	1	1
	b5	Apply the scientific method in a laboratory and in a variety of technical situations	2	1	1
	b6	Describe the fundamental nature of liquids, solids and gasses	2	1	1
	b7	Describe and compare the nature of organic and inorganic chemicals	2	2	2
	b8	Prepare an etching solution	3	2	2
	b9	Demonstrate knowledge of corrosion potential, chemical batteries and galvanic series	3	2	2
	b10	Describe the chain structure of polymers	3	3	3
		Chemical Science Skills, continued	G	М	Mari
С		Describe Atomic and Nuclear Structure and Radioactive Decay	3	2	2
	c1	Describe the basic characteristics of electrons, neutrons and protons in atomic structure	3	2	2
	c2	Describe the characteristics of radioactive decay	3	3	3
		PHYSICAL SCIENCE SKILLS			
Α		Apply Basic Concepts of Mechanics	2	2	1
	a1	Apply correctly appropriate units for physical quantities	2	1	1
		Use correctly the concepts of weight and mass	2	1	1
		Apply principles of force, moments and static equilibrium	2	2	1
		Explain the principles of the concept of frictions	2	2	1
		Demonstrate and apply Newton's law F = ma	2	2	1
		Apply fundamentals of potential and kinetic energy and of conservation of motion	2	2	1
	a7	Apply fundamentals of motion: velocity, acceleration, momentum, including rotational motion	2	2	1
	a8	Explain the concept of inertia and its relationship to acceleration and other forces	2	2	1
В	_	Apply Concepts of Fluids, Heat and Thermal Conduction	2	2	2
		Apply concepts of heat, including temperature, thermal conductivity, specific heat, etc.	2	1	1
		Use concepts of thermal expansion and differential thermal expansion	2	2	2
	b3	Demonstrate concepts of fluid pressure and behavior of fluids in annealing and heat treating	3	2	2
С		Describe and Apply Concepts of Electricity and Magnetism	2	2	2
	c1	Describe concepts of electromagnetic waves: x-rays, UV, radio waves and visible light	2	2	3
	c2	Explain the electrical properties of conductors, insulators and semiconductors	2	2	1
	c3	Apply concepts of magnetism and its role in motors and other phenomena	2	2	1
D		Apply Concepts of Light and Sound	2	2	2
		Apply concepts of light and optics as applied to physical measurements (for	2	2	1
		QA)	_		

—	d2	Demonstrate concepts of sound measurement and control (for QA)	2	2	1
		FUNDAMENTALS OF MATERIALS SCIENCE AND ENGINEERING			
Α		Identify the General Nature of Metals	2	1	1
		Recognize the general nature and available types of non-ferrous metals	2	1	1
		Describe the general nature of ferrous metals	2	1	1
		Explain what can be learned about a metal alloy from its phase diagram	2	1	1
	a4	Discuss the general nature of magnetic materials	2	2	1
В		Discuss the General Nature of Plastics and Polymers	2	1	1
	b1	Explain the general behavior of thermoplastic materials	2	1	1
	b2	Describe the general behavior of thermoset plastics	2	1	1
	b3	Recognize the differences between plastics and elastomers	2	2	2
С		Describe the General Nature of Composite Materials	2	2	1
	c1	Discuss the general nature of fiber-reinforced composites	2	2	1
		Describe the nature of structural foam composite materials	2	2	1
		Recognize other types of composites and how they differ from one-another	2	2	1
		Recognize other types of composites and now they affer from one another			
D		Identify the General Nature of Semiconductors and Optical Materials	3	2	1
		Describe the nature of semiconductors and other materials used in electronic	3	2	1
		devices			
	d2	Describe the nature of optical materials used in optics and in displays	3	2	1
	d3	Explain the structure and properties of optical fibers	3	2	1
_		Describe the General Nature and Behavior of Ceramics and Glasses		2	4
Е			2	2	1 1
		Discuss the general nature and properties of ceramic materials	2	2	
	ez	Explain the general behavior of glasses			1
F		Identify the General Nature and Properties of Other Materials used in Engineering	3	2	1
	f1	Describe the nature of wood and its derivatives	3	2	1
I		Explain the general nature of concrete	3		1
		Explain the general nature of concrete		2
